WHO AM I?

IT professional with solid and extensive **experience in technology management**. Responsible for a **consulting** company focused on developing small businesses and their web presence. Experience in diverse environments with skills in strategic planning, process optimization, and improving operational efficiency through technology: e.g. **time-tracking web applications** or **appointment management systems**. Passionate about innovation and deeply committed to **open-source software**. I am looking for an opportunity to apply my skills and experience as an **IT Manager** in a dynamic and success-oriented environment.

I have experience and skills in the **artistic aspect** of technology. I am proficient in **graphic design, audio and video editing**, color management, **graphic printing**, etc.

Additionally, I possess skills related to teaching, technical training, and writing, both technical and non-technical, as well as the use, handling, and management of **educational platforms**, such as **Moodle**.

PROFESSIONAL EXPERIENCE

2006 – 4/2024 **IT Manager/CTO**
Head of IT and Technological Infrastructure
Main responsibilities:

City Hall of Zafarraya

- IT Infrastructure Management
- Cybersecurity
- Project Management
- Technical Support
- Evaluation of Emerging Technologies
- Regulatory Compliance
- Strategic Planning
- Vendor Relations
- Full-stack Developer
- Continuous Development and Implementation *DevOps + CI/CD*

2004 – 2020 **Manager** **SIENTE :: IT Solutions of Poniente**
Development of websites and consultancy for the online presence of small businesses
CMS's like Joomla, Wordpress, TinyCMS, P*Nuke
ERP/CRM software such as Odoo, Eneboo, Dolibarr, FacturaScripts

1989 – 1995 **System Administrator and Application Developer on IBM S36/S38/AS400 and DEC VAX environments** **RD Informática Madrid S.A.**
Development of financial applications in RPG, COBOL, and Pascal

EDUCATION

2013 – 2023 **University Degree** **UNED – National Distance Education University**
Degree in Information Technology Engineering (Bologna Plan)

1984 – 1989 **Vocational Training** **I.F.P. Virgen de las Nieves. Granada.**
Specialist Technician in Communications Electronics.

2006 – 2024 **Ongoing Technical Training** **Consorcio Fernando de los Rios, Junta de Andalucía, CISCO, Inst. Cibernos and others**
Courses on countless topics that I omit due to space constraints but can provide upon request. i.e. Cisco IT Essentials and Instructor for Linux Essentials.

2024 – 2024 **IBM Z Xplore - All Star badge** **IBM Digital Badges on Credly**
This credential earner has a breadth of knowledge on IBM Z and is able to think critically across multiple different IBM Z skills. They have earned their IBM Z Xplore Concepts and Advanced badges and have navigated system activities using VS Code and Zowe, 3270 terminal, and LinuxONE environments. The earner has demonstrated key IBM Z skills including TSO, JCL, RACF, SDSF, DFSMS, SMP, Db2, and Linux. **Check the program here.**

2024 – 2024 **Web Development with Python** **Issued by IBM SkillsBuild on Credly**
This credential earner demonstrates applied proficiency in web development, Python programming, and debugging in Python. The individual can develop basic web pages, perform version control with Git, code in Python, and automate tests using Python. This credential earner demonstrates applied proficiency in web development, Python programming, and debugging in Python. The individual can develop basic web pages, perform version control with Git, code in Python, and automate tests using Python.

2024 – 2024 **Other digital Badges** **Check them on Credly**
Other badges earned and related to IBM systems supported by Credly Digital Credentials & Verified Skills. Click on the above right hand side links

ABOUT ME

I possess strong **communication, leadership**, and a high degree of **empathy**. I enjoy **teamwork**, especially when it is customer-oriented, including the ability to deliver technical training. I am also able to identify, analyze, and **solve problems**, both technical and organizational, quickly and effectively. I **adapt** easily to changing environments and am passionate about **technological innovation** from a strategic perspective, which gives me a solid understanding of how technology can drive, for example, **business objectives**.
